CONTRACTOR OPPORTUNITY – BUSINESS DEVELOPMENT (INDONESIA)

ABOUT BENEFICIAL RETURNS

Beneficial Returns (BR) is an impact investment fund whose mission is to expand opportunity for people living in poverty in the developing world. Founded in 2016, BR invests in growing social enterprises that use market -based solutions to reduce poverty and improve the environment. We also manage the Reciprocity Fund which provides loans to indigenous enterprises. We believe global poverty can be eliminated and, within their lifetime, every person can have the opportunity to achieve their full potential. Since inception, BR has lent over USD \$17M to more than 80 borrowers from 21 countries.

Our investors are family foundations, high-net-worth individuals, faith-based communities, and corporates that recognize that social enterprises require affordable, mission-aligned capital to deepen and widen their impact. Our borrowers are game-changing for-profits and non-profits working in the fields of sustainable agriculture, renewable energy, water and sanitation, waste, and livelihoods.
